

HOWSON DAM & CITIZENS POND COMMITTEE  
NEWSLETTER  
SEPT. 25, 2020

As I previously mentioned in the July 1/20 newsletter, the committee of council was presenting their recommendations to the North Huron council, on July 6/20. The council accepted the recommendation to repair the Howson dam. The town works supervisor, Sean McGee was asked to prepare the RFP or terms of reference for the engineers. The tenders were put forth at the start of Sept. and must be received at the Wingham town hall by Fri. Sept. 25/20

If you would like to view the terms of reference, go to:  
North Huron RFPs and Tenders,  
Tenders for the Howson Dam,  
of particular interest you might want to check out pages 12,17,18 &22.

The new town works supervisor, Jamie McCarthy, will be working closely with the North Huron council to review the tenders and make the appropriate recommendations. If you have not met Jamie, take an opportunity to welcome her to our community.

Once the complete details of the tender have been announced, I will share that information with you.

Thank you and stay safe.

Rennie Alexander, Howson Dam & Citizens Committee, Chairperson
